Sign up online for the registration on Oct 27th at 7:30pm. 8 hours of driving & road skills test complete between Nov 1st and Dec 15th.

This fall, we are excited to offer a FASTER THAN EVER TURNAROUND TIME between class, driving, road skills tests, and graduation. As you can see, the driving will be completed SHORTLY after the class. However, unavoidable scheduling conflicts such as inclement weather or administrative scheduling may cause small changes. In order to graduate on time, the student will have to progress at the speed of the average student. Slower learners may require more driving hours or classroom hours than the state-mandated 14 hours of instruction. Students will have to pass the class in order to be allowed to complete the driving. We have a 1:8 teacher-to-student ratio! Students must have a decent and teachable attitude to remain in class. Students will drive over 300 miles on the interstate, highway, in the country, and inner city streets during their 8 hours of driving.
